PROFESSIONAL SUMMARY

Execution-focused IT leader with 6+ years of progressive experience driving enterprise application support, CRM transformation, and systems integration across high-stakes financial services environments. Engineered measurable outcomes at scale: 40% efficiency uplift for 2,000+ users, 100+ automated workflows, 125+ hours/month reclaimed through telephony-CRM integration, and consistent 98%+ SLA compliance in SEBI-regulated operations. Combines deep technical command of Zoho Suite, REST APIs, ETL pipelines, and Deluge scripting with proven leadership in requirements gathering, stakeholder alignment, agile delivery, incident management, and change management. Recognised as Employee of the Quarter (Q3 2025) and Hackathon Runner-Up for innovation and delivery under pressure.

CORE COMPETENCIES

Enterprise CRM Implementation & Administration | Application Development & Production Support | REST API & Webhook Integration | Business Process Automation | ETL & Data Warehouse Management | Agile/Scrum Project Delivery | Product Roadmap Support & Requirements Gathering | Stakeholder & Executive Alignment | Incident Management & RCA | SLA Governance & Service Improvement | BI Dashboard Development | Change Management & Digital Transformation | Vendor Coordination | RBAC & Regulatory Compliance (SEBI, AMFI, TRAI) | Cross-Functional Team Leadership

PROFESSIONAL EXPERIENCE

Deputy Manager – Information Technology

ICICI Prudential Asset Management Company Ltd | Mumbai | Jul 2025 – Present

KEY HIGHLIGHTS | 125+ hours/month reclaimed via telephony-CRM integration | 40% improvement in Zoho CRM & Desk user adoption across 25+ stakeholders

- Orchestrated **end-to-end** integration of Simple2Call with Zoho CRM for **1,000+ Relationship Managers**, eliminating manual dialling and reclaiming **125+ operational hours monthly** — directly boosting sales team throughput.
- Championed structured onboarding and change management programs for **25+ Sales and Business Operations** stakeholders, driving a **40% uplift** in Zoho CRM and Zoho Desk adoption across the enterprise.
- Engineered **custom automation workflows** via Zoho Creator and Deluge scripting, delivering a **35% increase in operational efficiency** and a measurable reduction in manual processing time across key business functions.
- Architected **RESTful API integrations and webhook middleware** connecting internal platforms with third-party systems, enabling **real-time bidirectional data synchronisation** and enhancing cross-platform business continuity.
- Governed the full Zoho Suite ecosystem (CRM, Desk, Survey, Analytics, Creator), ensuring seamless multi-platform data flow and **100% alignment with SEBI regulatory compliance** requirements.
- Partnered with business stakeholders to elicit requirements, define workflows, and translate complex business needs into scalable Zoho-based solutions aligned with product delivery timelines.

Senior Application Support Engineer

MResult Services Pvt Ltd (Client: ICICI Prudential AMC) | Mumbai | Jul 2023 – Jul 2025

KEY HIGHLIGHTS | 100+ automated workflows deployed via Deluge, cutting manual effort by 60% | 40% productivity improvement across 2,000+ sales professionals

- Administered** enterprise Zoho CRM and Zoho Analytics platforms for **2,000+ sales professionals**, delivering a **40% improvement in productivity** and platform adoption across multiple business units.
- Designed and deployed **100+ automated workflows** using Deluge scripting, reducing manual processing effort by **60%** and enabling real-time cross-module data integration at enterprise scale.

- Engineered **multi-source ETL data integration pipelines** between the central data warehouse and Zoho applications via SQL and middleware, improving data accuracy by **35%** and accelerating BI reporting cycles for C-suite decision-making.
- Constructed **20+ executive dashboards** and advanced analytical reports in Zoho Analytics, providing C-level and cross-functional leadership with the data visibility needed for strategic planning.
- Implemented **RBAC and data governance frameworks** across the Zoho ecosystem, ensuring confidential BI visibility and **100% regulatory compliance** for financial services data security requirements.
- Sustained **98% first-call resolution** in Tier-2 application support within defined SLA parameters — driving measurable user satisfaction improvements across a large, distributed professional base.
- Coordinated with third-party vendors and internal IT teams on change and release management; reduced **MTTR** through structured RCA documentation and preventive incident controls.

Senior Technical Support Engineer

Veedee Solutions LLP | Mumbai | Nov 2022 – Jul 2023

KEY HIGHLIGHTS | *500+ qualified leads generated monthly* | *40% increase in relevant applicant traffic via multi-platform campaign management*

- Optimised automated recruitment email workflows via Shine's platform, driving a **30% increase in candidate response rates** and improving end-to-end talent acquisition performance.
- **Generated 500+ qualified leads monthly** through strategic deployment of recruitment technology, reducing time-to-hire and improving candidate targeting precision across client portfolios.
- Orchestrated multi-platform job posting campaigns, achieving a **40% increase in relevant applicant traffic** and ensuring consistent position visibility across digital channels.

Technical Support Engineer

Karix Mobile Pvt Ltd (now Tanla Platforms) | Mumbai | Dec 2020 – Oct 2022

KEY HIGHLIGHTS | *99.9% service uptime + 100% SLA compliance for Fortune 500 banking clients* | *P1/P2 incidents reduced by 25%, MTTR lowered by 30%*

- Delivered enterprise technical support for SMS, Email, WhatsApp, and Voice platforms to Fortune 500 banking clients including Deutsche Bank and HDFC Bank, sustaining **99.9% service uptime** and **100% SLA compliance** at all times.
- Resolved **1,200+ support tickets monthly**, systematically triaging by business impact to minimise client downtime and protect revenue-critical accounts.
- Eliminated recurring production incidents by **25%** through comprehensive RCA documentation and preventive controls; reduced **MTTR by 30%** via structured cross-functional engineering collaboration.
- Managed SMS template whitelisting and TRAI regulatory compliance for critical banking clients, maintaining **100% adherence** to messaging regulations and audit-ready documentation at all times.

Founder & Chief Executive Officer

Cayote | Mumbai | Oct 2019 – Nov 2020

KEY HIGHLIGHTS | *100% client retention* | *Project delivery speed accelerated by 25% through Agile implementation*

- Founded and scaled a technology services venture, achieving **100% client retention** and a **40% improvement in client satisfaction** through hands-on technical delivery and executive relationship management.
- Accelerated project delivery speed by **25%** by implementing Agile workflows, proactive milestone tracking, and real-time escalation management across concurrent client engagements.
